

**ANNOUNCEMENT OF INTENTION NOT TO PREPARE AN ENVIRONMENTAL
STATEMENT**

**(Regulation 5 of the Environmental Impact Assessment (Land Drainage
Improvement Works) Regulations 1999 as amended by SI 2005/1399 and SI
2006/618)**

**KING'S LYNN DRAINAGE BOARD
REPLACEMENT OF CHURCH FARM PUMPING STATION**

King's Lynn Drainage Board ('the Board') gives notice that it proposes to carry out works to replace Church Farm Pumping Station, south of Gaywood River, near King's Lynn. The proposals include works to an existing access track, demolition of the present pumping station and discharge pipes, and construction of a new pumping station (maximum design capacity 0.50m³/s) and associated outfall into Gaywood River. The works are being undertaken to increase the capacity of the pumping station and reduce flood risk. It is intended to commence works in June 2012.

With reference to the above statutory instrument it should be noted that it is not proposed to carry out an environmental assessment in relation to these works. Any person who wishes to make representation to the Board in relation to the environmental effect of these proposed improvements should do so in writing to the address shown below within 28 days of the publication of this notice.

A report and plans giving further details about the proposals are available for inspection at the address specified below (please telephone for an appointment).
