Church Farm Pumping Station	Apr-22	May-22	April - June
King's Reach Pumping Station	Apr-22	May-22	April - June

Note 1: This work constitutes safety cuts of drains adjacent to roads for safety reasons.

Note 2: The Board operate a highly dynamic maintenance programme, which is based on teams moving within set catchments to undertake maintenance in line with harvesting programmes. Therefore the maintenance period varies based on crop type as well as other factors. Our operations teams and operations manager work closely with landowners to link our operational programmes with theirs, however the IDB retain the right to enter a landholding as required under the Land Drainage Act 1991.
