							Programme Total	150,000		2,250,000

*tbc – to be confirmed.

*GiA – Grant in Aid. Administered by the Environment Agency.

1. Projects in Development – During this phase, we undertake study work to produce the information required to support the Outline Business Case (OBC) that is submitted to the Environment Agency for Technical & Funding Approval. At this early stage information such as Milestones and Total Project Forecast, are subject to change as information associated with the project is refined.
2. Projects in Delivery – We move into this phase once the OBC has received Approval from the Environment Agency and funding is confirmed.
3. To request further information about schemes in Development please email Project.Development@wlma.org.uk, or contact Giles Bloomfield, Project Development Manager, on 07795 312628.
