

STATEMENT OF ACCOUNTS FOR THE YEAR ENDING 31 MARCH 2022

Pierpoint House 28 Horsleys Fields Kings Lynn Norfolk PE30 5DD

NOTE ACCOUNTING POLICIES

1 FINANCIAL REPORTING STANDARDS, REGULATION AND GUIDANCE

- (i) The Board has not elected to prepare a full Statement of Accounts required by larger public bodies (Category 1 Authorities), as provided for in the Local Audit and Accountability Act 2014.
- (ii) The Board has completed this Statement of Accounts in accordance with the Financial Reporting Standard for Smaller Entities 2008 (FRSSE) issued by the Accounting Standards Board (other than in respect of the note required for the defined benefit pension scheme) and has prepared an Annual Return which all Category 2 Authorities are required to do, in accordance with Regulation 11 of the Accounts and Audit Regulations 2015 based on these Accounts. The Board is a Category 2 Authority.
- (iii) The Annual Return has been prepared in accordance with proper practices that are set out in Sections 1 to 5 of the Guidance published by the Association of Drainage Authorities in March 2022. This Statement of Accounts therefore includes the Accounting Statement reported in Section 2 of the Annual Return, which has been reconciled to the Income and Expenditure Account and Balance Sheet stated herein.

2 ACCOUNTING CONCEPTS

These accounts have been prepared in accordance with the following accounting concepts:

Going Concern Prudence Accruals

3 FIXED ASSETS

- (i) Fixed Assets are recognised as expenditure on the acquisition, creation or enhancement of fixed assets. Most assets with estimated useful economic lives in excess of one year and a value of £5,000 or above are capitalised on an accruals basis in the Accounts.
- (ii) All Fixed Assets are valued on the following basis:

Land and buildings are included in the balance sheet at lower of net current replacement cost and net realisable value, net of accumulated depreciation. Net current replacement cost is assessed as:

Non-specialised operational properties - existing use value

Specialised operational properties - depreciated replacement cost

Vehicles, plant and equipment are included at cost less depreciation

For the purposes of Box 9 in Section 2 of the audited Annual Return, Fixed Assets are valued at Net Book Value.

- (iii) Disposals are written off at cost less depreciation. Any surplus/deficit arising is charged/credited to Exceptional Items in the Income and Expenditure Account.
- (iv) Depreciation has been provided for using the straight line method.
- (v) The useful lives of the various assets held on the Fixed Assets Register are as follows:

NOTE ACCOUNTING POLICIES

The Board has paid a contribution of 23.5% on employees pensionable pay into the pension fund during 2021/22.
- (ii) The expected cost of providing pensions, as calculated periodically by professionally qualified actuaries, is charged to the Income and Expenditure Account in order to spread the cost over the service lives of employees in the scheme. Further costs arise in respect of certain pensions paid to retired employees on an unfunded basis.

- The Board provides its employees with access to the Local Government Pension Scheme but does not need to Account for this as a 19(i) defined benefit pension scheme to comply with the limited assurance audit regime. However the Board has chosen to do so because it does have a pension liability, which has been calculated by the LGPS Fund Actuary as at 31 March 2022.
- 19(ii) The Board is a member of the Water Management Alliance Consortium and as such also has a proportion of the pension liability for the shared staff that are employed by King's Lynn IDB, t/a the Water Management Alliance. The Fund Actuary for Norfolk County Council has prepared a separate Report for the Water Management Alliance, which identifies a notional net pension liability of £4,272,000 as at 31 March 2022 that is shared by all 6 Member Boards. However Waveney Lower Yare and Lothingland IDBs liability is capped at £5,000 until 31st March 2022. The Board's share of this pension liability is set out every year in the WMAs Basis of Apportionment, which was approved by the Board on 27 January 2022.
- 20 The Reserves are managed in accordance with the Capital Financing and Reserves Policy, as approved by the Board on 28 January 2021. This policy is available for viewing on the Board's website.
- 21 The purpose of the Development Reserve is to reduce the impact on drainage rates and special levies from development that takes place in the area. The Board charges developers a standard rate per impermeable hectare for agricultural land which is developed and becomes a hard standing area, such as housing, roadways etc. The money is credited to this Reserve and then used to reduce the gross cost of capital work needed to cater for the additional flows arising from such development. The income for this Reserve therefore comes exclusively from developers and is used to fund in part improvement works that are necessary because of development.
- The purpose of the Plant Reserve is to reduce the impact on drainage rates and special levies as and when equipment is bought and sold, in accordance with the plant renewals programme. Depreciation is its primary source of income, which largely comes from drainage rates/special levies in the form of plant charges included within the maintenance budget, together with any profits on disposal. Changes in hourly charge out rates are determined by the Operations Manager and the Chief Executive. Expenditure is determined by the Board, following recommendations made by the Chief Executive and Operations Manager.
- 23 This Revaluation Reserve has arisen from the revaluation of the Board's share of Kettlewell House on 31 March 2009 (approx. 10%).

Related Party Transactions

- Mr J F Carrick is the Chairman of the Norfolk Rivers IDB. He has been paid £3,500.00 Chairman's Allowance for the period of 01.04.21-24 31.03.22.
- The Board uses Rating Software for the collection of Drainage Rates known as DRS. The software was developed by Mr P J Camamile, 25 the Chief Executive, and is supported by Byzantine Ltd. Mr P J Camamile is the Company Secretary of Byzantine Ltd, and his wife, Mrs P Camamile is a Director. Both are shareholders.

19th April 2022

.....

Internal Audit Service

This audit has been conducted in accordance with the Accounts & Audit Regulations and our Audit Charter, and complies with the Public Sector Internal Audit Standards. It should be noted that the assurances provided here can never be absolute, and therefore only reasonable assurance can be provided if there are no major weaknesses in control subject to Internal Audit review (at the time of testing).

The co-operation and assistance of all staff involved is greatly appreciated. This review was conducted by Kathy Woodward to whom any query concerning the content of this report should be made to kwoodward@fenland.gov.uk

The Executive Summary sets out the results of the work carried out and our overall conclusion on the system reviewed, and summarises the key recommendations arising.

Overall Objective and System Background

The overall objective of the audit was to ensure the effectiveness of the system of internal control operating within the Water Management Alliance (WMA).

The WMA is a group of Internal Drainage Boards (IDBs) who share the same vision, values and standards and have chosen to jointly administer their affairs in order to reduce costs, strengthen their own organisations and increase influence at a national and local level. Each IDB is responsible for providing flood protection and maintaining the drainage and water level management infrastructure within their respective area.

The WMA provides administrative and management support services to six constituent IDB Member Boards, namely Broads, King's Lynn, East Suffolk, Norfolk Rivers, South Holland, and Waveney, Lowe Yare and Lothingland and also provide support services to the Pevensey & Cuckmere Water Level Management Board. The Waveney, Lower Yare & Lothingland IDB joined the WMA on 1st April 2020; however, the WMA did not start providing support services to them until 1st April 2021.

Summary of Key Control Issues and Risks

Based upon the work carried out, Substantial Assurance can be given regarding the effectiveness of the system of internal control operating within the WMA. There are few minor weaknesses identified within the Creditors and Bank Reconciliation areas that require review.

- Instances were identified where payment runs are not authorised as per the financial regulations on either the suggested payments report or the authorisation report.
- There are instances on the Broads IDB bank reconciliation where reconciliations take place for part days, meaning that one full day can have two separate reconciliations. There is a risk that transactions could be missed and is not following standard operating procedure.

A general recommendation has been included regarding improvements that could be made to increase the audit trail of the finance transactions and authorisation procedures, to increase efficiency and to go paperless, thus increasing the efficiency, flexibility and agility of the team.

Summary of Key Recommendations

The key recommendations arising from the audit are:

• Ensure all payment runs have been appropriately authorised.

Internal Audit advice would be that this could be done by the Finance and Rating Manager or the Chief Executive, so long as appropriate segregation of duties is in place.

- Ensure all reconciliations are undertaken up to the end of the previous day, to ensure each complete day is recorded in one reconciliation and corresponds to the bank statements.
- Review current practices to see where efficiencies can be made in going paperless and explore the finance system capabilities for more efficient and robust electronic authorisations.

2. Objective & Scope

2.1 The overall objective of the audit was to ensure the effectiveness of the system of internal control operating within the Water Management Alliance (WMA).

2.2 The audit involved the following:

- Creditors sample testing of purchase orders and invoice payments for appropriate authorisation in accordance with Financial Regulations.
- Risk Management reviewing Board minutes for evidence of review of Risk Register at regular intervals; reviewing each Board's Risk Register for expected and relevant risks.
- Budgetary Control reviewing Board minutes for evidence that budgets for the year ahead are set and that monitoring reports are presented to the Board on a regular basis with analysis of any variations. Checking that financial reporting to Boards is in accordance with Financial Regulations.
- Reserve's Policy reviewing each Board's Reserves Policy for adequacy and assessing whether each Board's reserves are appropriate.
- Income reviewing the system for the receipt and banking of income; test checking
 a sample of income receipts for evidence of prompt and correct banking, and that
 VAT is accounted for correctly.
- Petty Cash reviewing the petty cash system and the appropriateness of payments made out of petty cash for appropriateness.

3. Background Information

- 3.1 The WMA is a group of Internal Drainage Boards (IDBs) who share the same vision, values and standards and have chosen to jointly administer their affairs in order to reduce costs, strengthen their own organisations and increase influence at a national and local level. Each IDB is responsible for providing flood protection and maintaining the drainage and water level management infrastructure within their respective area.
- 3.2 The WMA provides administrative and management support services to the six constituent IDB Member Boards, namely Broads, King's Lynn, East Suffolk, Norfolk Rivers, South Holland and Waveney, Lower Yare and Lothingland. The WMA also provide support services to the Pevensey & Cuckmere Water Level Management Board. The Waveney, Lower Yare & Lothingland IDB joined the WMA on 1st April 2020; however, the WMA did not start providing support services to them until 1st April 2021.
- 3.3 As a service provider, the WMA makes available shared administrative and support services to its Member Boards, which allows each Board to concentrate on delivery within their Drainage Districts. All back-office functions are handled by the WMA enabling each Board to use their resources to support the public and provide quality frontline services.

Findings, Risks, Recommendations and Management Action Plan

Control Objective 1: Creditors – To ensure that all orders have been raised and payments processed in accordance with Financial Regulations. (AGAR B)

| Rec. no. | Finding / Risk | Recommendation | Priority Rating | Management Response | Responsible Officer and Agreed Due Date |
|-------------|--|--|--------------------|--|--|
| 1. | Finding All suggested payment reports and authorisation reports for the whole year were checked for appropriate authorisation. The process requires at least one of these reports to be initialled or authorised by PC. Three instances were identified where neither report had been authorised before payments were made. Kings Lynn – 31/05/2021 South Holland – 31/05/2021 Norfolk Rivers – 31/07/2021 It was explained by the Finance and Rating Manager that this was likely a result of staff members working from home and authorisations obtained via email, but not attached to the file. Risk Risk that unauthorised payments could be made and not made in accordance with Financial Regulations. | Ensure all payment runs have been appropriately authorised. Internal Audit advice would be that this could be done by the Finance and Rating Manager or the Chief Executive, so long as appropriate segregation of duties is in place. | Low | These payment runs were processed by the Finance and Rating Officer that was required to isolate due to being classed as Clinically Extremely Vulnerable, and working from home. The Finance and Rating Manager will now approve these moving forward from 01 st April 2022 (the Chief Executive will sign in her absence) | Sallyanne Jeffrey/All Finance and Rating Team April 2022 |

| 3. | Finding Following on from the Covid 19 pandemic, significant strides have been made in digital efficiencies to enable the workforce to work in a more flexible and agile manner. Control Objective 2: Risk Management – To ensure that the organisation has assessed the significant risks to achieving its objectives and has reviewed the adequacy of the arrangements to manage these.

| 1. | Finding Board minutes do not routinely state that material changes to the risk register for those risks scored 6 or above have been considered and approved by the Board at each meeting, or that the full risk register was considered and approved each year. Risk Risk that significant risks to the achievement of the organisation's objectives are not identified and assessed. | As required by each Board agenda, Board minutes should clearly state that any material changes to the risk register have been "considered and approved" by the Board. Similarly, when the full risk register is reviewed annually by the Board, the minutes should state that the full risk register was "considered and approved". | Medium | The reality is that the Risk Register is always "considered in detail and approved" at every Board meeting. The issue is that this is not always accurately recorded in the minutes. Of the 24 Board meetings that took place during 2020/21, the minutes of 6 of those meetings did not include the word "approved". The CEOs PA will check the minutes more closely in future. | CEOs PA 30th June 2021 | All Board minutes have been checked for the risk register items and now contain the correct description of 'approved' in the minutes. |
| 2. | Finding The King's Lynn Risk Register is dated 29/11/19, although there is evidence from the Board minutes from 13/11/20 and 15/01/21 of the Board considering and approving the Risk Register. Risk Risk that the Risk Register is not current and that new risks are not identified. | The date stated on the King's Lynn Risk Register should be amended to record the date of the most recent approval of the register by the Board. | Low | The Risk Register is always current and includes all new risks identified. The issue is that the date that appears in the page footer is not always updated every time the Risk Register is updated. The CEOs PA will check that this date is always updated when the Risk Registers are updated, moving forward. | CEOs PA 30th June 2021 | All risk registers have been checked and the updated date now coincides with the appropriate Board meeting. |

| 3. | A NRIDB employee claimed a total of 264 miles in week 17 but was only paid for 147 miles in the July 2020 payroll. The employee uses a computerised timesheet/expenses form which is updated each month. The figure of 264 miles was entered on the expenses claim for week 17, and authorised, but the total from the previous week (147 miles) was inadvertently left on the form in the "for office use only" section; therefore, they were paid 147 miles rather than the correct figure of 264. One Broads IDB employee claimed 188 miles in week 42 but had not received payment. A WMA employee claimed 96 passenger miles in December 2020 for which they were not paid. | | Medium | | | |
| | The two underpayments and the two missed payments were discussed with the Finance & Rating Manager who agreed to include them in the May 2021 payroll (as the April payroll had already been run). The Finance & Rating Manager assured Internal Audit that additional processes have been put in place to increase the accuracy of the payroll processing. She is going to place all of the Finance team on a payroll course when available to increase their skill set. | | | | | |

Follow-up of Previous Report's Recommendations

| 4. | Finding One SHIDB employee did not complete a timesheet for weeks 41, 42 and 43 when they were on leave. It was established that other SHIDB staff do complete a timesheet when they are on leave; therefore, for consistency, all staff should complete a timesheet when they go on leave. It was agreed with the Finance & Rating Manager that all staff at SHIDB should be required to complete a timesheet and have it authorised prior to them going on leave. Risk Risk of staff being paid without submitting a timesheet. | Employees should be required to submit a weekly timesheet when they are on annual leave. - Section 2 Accounting Statements 2021/22, approved and signed, page 5

Not later than 30 September 2022 authorities must publish:

- · Notice of conclusion of audit
- Section 3 External Auditor Report and Certificate
- Sections 1 and 2 of AGAR including any amendments as a result of the limited assurance review.

It is recommended as best practice, to avoid any potential confusion by local electors and interested parties, that you also publish the Annual Internal Audit Report, page 3.

The Annual Governance and Accountability Return constitutes the annual return referred to in the Accounts and Audit Regulations 2015. Throughout, the words 'external auditor' have the same meaning as the words 'local auditor' in the Accounts and Audit Regulations 2015.

*for a complete list of bodies that may be smaller authorities refer to schedule 2 to the Local Audit and Accountability Act 2014.

Guidance notes on completing Form 3 of the Annual Governance and Accountability Return (AGAR) 2021/22

- The authority **must** comply with *Proper Practices* in completing Sections 1 and 2 of this AGAR. *Proper Practices* are found in the *Practitioners' Guide** which is updated from time to time and contains everything needed to prepare successfully for the financial year-end and the subsequent work by the external auditor.
- Make sure that the AGAR is complete (no highlighted boxes left empty), and is properly signed and dated. If the AGAR contains unapproved or unexplained amendments, it may be returned and additional costs will be incurred.
- The authority **should** receive and note the Annual Internal Audit Report before approving the Annual Governance Statement and the accounts.
- Use the checklist provided below to review the AGAR for completeness before returning it to the external auditor by email or post (not both) no later than 30 June 2022.
- The Annual Governance Statement (Section 1) must be approved on the same day or before the Accounting Statements (Section 2) and evidenced by the agenda or minute references.
- The Responsible Financial Officer (RFO) must certify the accounts (Section 2) before they are presented to the authority for approval. The authority must in this order; consider, approve and sign the accounts.
- The RFO is required to commence the public rights period as soon as practical after the date of the AGAR approval.
- Do not send the external auditor any information not specifically requested. However, you must inform your
 external auditor about any change of Clerk, Responsible Financial Officer or Chairman, and provide
 relevant authority owned generic email addresses and telephone numbers.
- Make sure that the copy of the bank reconciliation to be sent to your external auditor with the AGAR covers all the bank accounts. If the authority holds any short-term investments, note their value on the bank reconciliation. The external auditor must be able to agree the bank reconciliation to Box 8 on the accounting statements (Section 2, page 5). An explanation must be provided of any difference between Box 7 and Box 8. More help on bank reconciliation is available in the *Practitioners' Guide**.
- Explain fully significant variances in the accounting statements on **page 5**. Do not just send a copy of the detailed accounting records instead of this explanation. The external auditor wants to know that you understand the reasons for all variances. Include complete numerical and narrative analysis to support the full variance.
- If the external auditor has to review unsolicited information, or receives an incomplete bank reconciliation, or variances are not fully explained, additional costs may be incurred.
- Make sure that the accounting statements add up and that the balance carried forward from the previous year (Box 7 of 2021) equals the balance brought forward in the current year (Box 1 of 2022).
- The Responsible Financial Officer (RFO), on behalf of the authority, **must** set the commencement date for the exercise of public rights of 30 consecutive working days which **must** include the first ten working days of July.
- The authority **must** publish on the authority website/webpage the information required by Regulation 15 (2), Accounts and Audit Regulations 2015, including the period for the exercise of public rights and the name and address of the external auditor **before 1 July 2022**.

In respect of

NORFOLK RIVERS INTERNAL DRAINAGE BOARD - DB0061

1 Respective responsibilities of the body and the auditor

Our responsibility as auditors to complete a **limited assurance review** is set out by the National Audit Office (NAO). A limited assurance review is **not a full statutory audit**, it does not constitute an audit carried out in accordance with International Standards on Auditing (UK & Ireland) and hence it **does not** provide the same level of assurance that such an audit would. The UK Government has determined that a lower level of assurance than that provided by a full statutory audit is appropriate for those local public bodies with the lowest levels of spending.

Under a limited assurance review, the auditor is responsible for reviewing Sections 1 and 2 of the Annual Governance and Accountability Return in accordance with NAO Auditor Guidance Note 02 (AGN 02) as issued by the NAO on behalf of the Comptroller and Auditor General. AGN 02 is available from the NAO website – https://www.nao.org.uk/code-audit-practice/guidance-and-information-for-auditors/.

This authority is responsible for ensuring that its financial management is adequate and effective and that it has a sound system of internal control. The authority prepares an Annual Governance and Accountability Return in accordance with Proper Practices which:

- summarises the accounting records for the year ended 31 March 2022; and
- confirms and provides assurance on those matters that are relevant to our duties and responsibilities as external auditors.

Section 4 - Projected defined benefit cost for the period to 31 March 2023

Analysis of projected amount to be charged to operating profit for the period to 31 March 2023

| | £(000) | £(000) | £(000) | % of pay |

| Total Net Interest Cost | 18 | 21 | (3) | (4.7%) |
| Total Included in Profit and Loss | 18 | 44 | (26) | (41.3%) |

^{*} The current service cost includes an allowance for administration expenses of 0.6% of payroll. The monetary value is based on a projected payroll of £63,000.

The contributions paid by the Employer are set by the Fund following an actuarial valuation. For further details on the approach adopted to set contribution rates for the Employer, please refer to the latest formal valuation report and Funding Strategy

I estimate the Employer's contributions for the period to 31 March 2023 will be approximately £15,000.

Notes:

The above figures should be treated as estimates and may need to be adjusted to take account of:

- any material events, such as curtailments, settlements or the discontinuance of the Employer's participation in the Fund;
- · any changes to accounting practices;
- any changes to the Scheme benefit or member contribution rates; and/or
- any full funding valuation that may have been carried out on the Employer's behalf.

The monetary amount of the projected service cost for the period to 31 March 2023 will be adjusted to take account of the actual pensionable payroll for the period.

Section 5 - Sensitivity Analysis

Sensitivity analysis

The sensitivities regarding the principal assumptions used to measure the scheme obligations are set out below:

| Change in assumptions at 31 March 2022: | Approximate % increase to Defined Benefit Obligation | Approximate monetary amount (£000) |
|--|---|------------------------------------|
| 0.1% decrease in Real Discount Rate | 2% | 19 |
| 1 year increase in member life expectancy | 4% | 30 |
| 0.1% increase in the Salary Increase Rate | 0% | - |
| 0.1% increase in the Pension Increase Rate (CPI) | 2% | 18 |

The principal demographic assumption is the longevity assumption (i.e. member life expectancy). For sensitivity purposes, we estimate that a one year increase in life expectancy would approximately increase the Employer's Defined Benefit Obligation by around 3-5%. In practice the actual cost of a one year increase in life expectancy will depend on the structure of the revised assumption (i.e. if improvements to survival rates predominantly apply at younger or older ages).

The provided sensitivity figures can be used to estimate the impact of adopting different financial assumptions (e.g. an Employer considering alternative accounting assumptions or to help an Employer complete an ESFA accounts return). For further details on this, please refer to the accompanying accounting covering report.

In order to quantify the impact of a change in the financial assumptions used, we have calculated and compared the value of the scheme obligations at the accounting date on varying bases. The approach taken is consistent with that adopted to derive the accounting figures provided in this report, based on the profile (average member ages, retirement ages etc) of the Employer as at the date of the most recent valuation.

Section 2 - Assumptions

Financial assumptions

The financial assumptions, as described in the accompanying covering report, are summarised below:

| Period Ended | 31 Mar 2022 | 31 Mar 2021 |
|-----------------------------|-------------|-------------|
| | % p.a. | % p.a. |
| Pension Increase Rate (CPI) | 3.15% | 2.80% |

As at the date of the most recent valuation, the duration of the Employer's funded obligations is 29 years.

Demographic assumptions

Life expectancy is based on the Fund's VitaCurves with improvements in line with the CMI 2021 model, with a 0% weighting of 2021 (and 2020) data, standard smoothing (Sk7), initial adjustment of 0.25% and a long term rate of improvement of 1.5% p.a. for both males and females. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

| | Males | Females |
|--------------------|------------|------------|
| Current Pensioners | 21.7 years | 24.1 years |
| Future Pensioners* | 22.9 years | 26.0 years |

^{*} Figures assume members aged 45 as at the last formal valuation date.

Life expectancies for the prior period end are based on the Fund's VitaCurves. The allowance for future improvements are shown below:

Please note that the mortality assumptions used to value the Obligations in the Employer's Closing Position are different to those used to value the Obligations in the Employer's Opening Position.

A commutation allowance is included for future retirements to elect to take 50% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 75% of the maximum tax-free cash for post-April 2008 service.

All other demographic assumptions are as per the latest funding valuation of the Employer.

Section 5 - Sensitivity Analysis

Sensitivity analysis

The sensitivities regarding the principal assumptions used to measure the scheme obligations are set out below:

| Change in assumptions at 31 March 2022: | Approximate % increase to Defined Benefit Obligation | Approximate monetary amount (£000) |
|--|--|------------------------------------|
| 0.1% decrease in Real Discount Rate | 3% | 293 |
| 1 year increase in member life expectancy | 4% | 418 |
| 0.1% increase in the Salary Increase Rate | 1% | 59 |
| 0.1% increase in the Pension Increase Rate (CPI) | 2% | 232 |

The principal demographic assumption is the longevity assumption (i.e. member life expectancy). For sensitivity purposes, we estimate that a one year increase in life expectancy would approximately increase the Employer's Defined Benefit Obligation by around 3-5%. In practice the actual cost of a one year increase in life expectancy will depend on the structure of the revised assumption (i.e. if improvements to survival rates predominantly apply at younger or older ages).

The provided sensitivity figures can be used to estimate the impact of adopting different financial assumptions (e.g. an Employer considering alternative accounting assumptions or to help an Employer complete an ESFA accounts return). For further details on this, please refer to the accompanying accounting covering report.

In order to quantify the impact of a change in the financial assumptions used, we have calculated and compared the value of the scheme obligations at the accounting date on varying bases. The approach taken is consistent with that adopted to derive the accounting figures provided in this report, based on the profile (average member ages, retirement ages etc) of the Employer as at the date of the most recent valuation.

Section B: NOTES

Guidance and Best Practice

Has your Board published **all** minutes of meetings on the web site? In answering this question, this should apply to all the main Board meetings held in the year and any appropriate meetings the Board has held with external stakeholders.

Board membership and attendance

When referring to **elected members** of the Board, this relates to the number of landowners/drainage rate payers that are elected to the Board.

When referring to **appointed members** of the Board, this relates to the number of members appointed by the local authorities to represent the local council taxpayers.

When referring to mean average number of elected and appointed members in attendance at meetings at each board meeting – **this should be expressed as a number of attendees** and not as a percentage attendance.

With regard to elections, under Schedule 1 of the Land Drainage Act 1991, elected members should hold office for three years, at which point a further election is held. When elections are held, they should comply with the requirements under Regulation 28 of the Land Drainage (Election of Drainage Boards) Regulations 1938 – to advertise and notify local stakeholders accordingly.
