

Invitation to Tender (“ITT”)

Date: 20 December 2021

1 Overview of the Pevensey & Cuckmere Water Level Management Board (the “Customer Organisation”)

1.1 The Customer Organisation is an Internal Drainage Board, a public body currently administered by the Water Level Management Alliance. Our aim is to reduce the risk to people, property, infrastructure and the natural environment by providing and maintaining technically, environmentally and economically sustainable flood defences and water level management networks within our hydraulic sub catchment areas. In doing this, our procurement objective is always to achieve best value, best practice and the most sustainable outcome.

2 Introduction and Background to the Project / Programme

2.1 The purpose and scope of this ITT and supporting documents is to explain in further detail the requirements of the Customer Organisation and the procurement process for submitting a tender proposal.

2.2 The successful Tenderers will be put onto a list of ‘approved suppliers’ for the Customer organisation, for calling on to do work as required across its working area.

2.3 Tenderers scores will be ranked and a call down list will be based on the scores achieved, with those achieving the highest tender score being approached first, followed by the second highest scoring Tenderer and so on.

2.4 The Customer organisation reserves the right to approach specific contractors outside of the arrangement stated in 2.3 should it be considered beneficial, more efficient or necessary.

3. Tender Conditions and Contractual Requirements

This section of the ITT sets out the Customer Organisation’s contracting requirements, general policy requirements, and the general tender conditions relating to this procurement process (“**Procurement Process**”).

3.1.4 The Contract awarded will be for a duration of 16th July 2022 to 16th March 2025 with an option for an extension for up to an additional 24 months.

3.1.5 In the event that you have any concerns or queries in relation to the Contract, you should submit a clarification request in accordance with the provisions of this ITT by the Clarification Deadline (as defined below in the Timescales section of this ITT). Following such clarification requests, the Customer Organisation may issue a clarification change to the Contract that will apply to all potential suppliers submitting a tender response.

3.1.6 The Customer Organisation is under no obligation to consider any clarifications / amendments to the Contract proposed following the Clarification Deadline, but before the Tender Response Deadline (as defined below in the Timescales section of this ITT). 12.1 All clarification requests should be submitted to Revai Kinsella and Phil Camamile, revai.kinsella@wlma.org.uk cc: phil@wlma.org.uk by the Clarification Deadline, as set out in the Timescales section of this ITT. 12.2 Any clarification requests should clearly reference the appropriate paragraph in the ITT documentation and, to the extent possible, should be aggregated rather than sent individually.

12.3 The Customer Organisation reserves the right to issue any clarification request made by you, and the response, to all potential suppliers unless you expressly require it to be kept confidential at the time the request is made. If the Customer Organisation considers the contents of the request not to be confidential, it will inform you and you will have the opportunity to withdraw the clarification query prior to the Customer Organisation responding to all potential suppliers.

12.4 The Customer Organisation may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the Customer Organisation by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

13 Evaluation Criteria

13.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tender responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this ITT and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will be automatically disqualified and will not be further evaluated.

Stage 2: If a bidder succeeds in passing Stage 1 of the evaluation, then it will have its detailed tender response to the Customer Organisation’s requirements evaluated in accordance with the evaluation methodology set out below.

13.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Quality	35%
Methodology and Approach	5%
Environmental & Carbon Initiatives	10%
Commercial	50%

13.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 2 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the Customer Organisation for all criteria other than Commercial using the following

scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good - Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested, in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level of ambiguity due to the bidder’s failure to provide all information at the level of detail requested.
5	Adequate - Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable - The response is non-compliant with the requirements of the ITT and/or no response has been provided.

13.4 Commercial Evaluation – Your “Overall Price” for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the Customer Organisation as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the Customer Organisation as part of the pricing approach, the Customer Organisation may reject the full tender response at this point. The Customer Organisation may also reject any tender response where the Overall Price for the goods and/or services is considered by the Customer Organisation to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two

decimal places) = commercial score.

13.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

13.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology.
